Dear Sir:

I was electrocuted in an apartment. After moving into this apartment I began hearing voices. I could not tape, and at times there was a twittering sound. It, the voices developed into a type of chorus that seemed to come from outside accompanied by a running conversation.

After the execution the voices I did stay away from all Italians, lower class people, Southern people, black people foreigners, people of foreign extraction, women and to say nothing and do nothing and they would use what I had.

2

I cashed for a Title Bond to insure that nothing in my life would be used. The Bond was given made up of various components in such a way that I could know what they were using and it was what I was talking about in the apartment. The apartment in which I lived was in a swimming pool complex. It's been said has been used for six years. Since I have a Title Bond and nothing in my life can ever be used, I am now applying through a lawyer for my Title Insurance. I must receive triple damages and legal fees. The amount stipulated I know and no one is ever to come near me. Please notify or prosecute these persons who are involved in this as you have stated you would. My Title Bond states that myself and three other people that

3

I will name to a lawyer will
be forever free of these pests
murderers or what ever they
are. Earlier they wanted to
know if the events noted con-
stituted murder or population
control (There is a theoretical
structure explaining these).

Actually in this apartment
~~I~~ put these things in an upper
class group. (I did this)

These voices are identifiable
and they are among the pests
that I hope will be prosecuted.
Since these voices are constant day
and night please see that they are
stopped (I think they are simulated
in some way because there is a voice
now and then and I know it is
not real. There has never been the
voice of a person I would call
a friend. Pictures, maps, cartoons
visual apparition can be made to
appear in a running conversation.
There has been absolutely nothing of
worth from the learned stand point.

4

Since my title insurance was deposited as soon as my material was used I was informed it would only be a matter of a few hours to claim damages. I was told never to use my name in applying.

The voices are identifiable and they are among the guests that I hope will be prosecuted. Since the conversation is filthy, ignorant, non-relevant at times, violated backward, stupid, ridiculous, vicious, I am urging you to prosecute them. Since these voices are constant and these please see that they are stopped.

At one time they were supposed to put everything in the congressional record every three days.

The system of alliances, relationships, problems, methods of development. Solutions are such that I am aware that my work is being used. I was under the impression that this dynamic mechanism was copyrighted in my name. I know it cannot be used without being known to me.

This dynamic approach to a ~~great~~ vast amount of seemingly unrelated phenomena is entirely original. The dynamic mechanism is political at least it has a political component. This is why I am presenting to this agency.

b
Although There are various components in the Bond the entire Bond would be a function of the Government as Government involved - And the political component gives privileges to that It is a function of Government "I ~~can not~~ know the amount in the entire Bond

I have been electrocuted and the political component is being used in a certain way! —

Please tell these people this is not for them - at all.
